

## If You Eat You Need "Digestit" The New Relief For Indigestion

It has been stated that more than eight million people in the United States are victims of some form of indigestion. The American people do not take time enough to eat. The result is stomach distress, gas, belching, indigestion and dyspepsia.

"Digestit" is the new relief—it has been found a certain quick and permanent remedy. Thousands of people have found relief from its use. Their own statement on file in our office.

## WOMEN DENOUNCE EQUAL SUFFRAGE

(Continued from First Page.)

Miss Bissell, have long found that it is easier to secure remedial legislation by appealing to the Legislatures as a body of united and disinterested women than to demand it as political equals. Equal suffrage, she said, would result in sex antagonism, in which no quarter would be granted, because women would then assume the role of active competitors, and as such, to be feared.

For the college woman equal suffrage holds out no attraction, said Miss Bissell. The college girl no longer looks at life through her brains only. "She does not dwell so much on woman's possibilities of being more like a man. She prefers the larger and wider possibilities of woman's being more of a woman. Exactly the same education for men and women is no longer this college ideal. Exactly the same function in the community is not a valid ideal either. Domestic science, the chemistry of food, child nurture, home hygiene, all elevate household problems

nowadays to the level of laboratory and experiment station work. Making a better world by creating lovely homes for children to come into does not need a vote."

**Scratching a Volcano.**  
Miss Bronson looked upon the woman suffrage as a wild scratching on the surface of a volcano, heedless of consequences. She stated at the outset that the field had been so thoroughly covered by Miss Bissell that she could do little more than elaborate upon what had already been said. The theory so regularly advanced by the opposite camp that the ballot in the hand of woman would remedy low wages and sex discrimination, she denounced as specious, fallacious, and without meaning.

"Until ballots in the hands of men make strikes unnecessary and raise the scale of wages," she warned, "let no one be persuaded that the ballot in the hand of women will prove more efficacious."

Miss Bronson examined into the effect of equal suffrage in the States where it has been adopted, drawing from affairs brought to light in Denver and other cities where women are permitted the ballot, the conclusion that "women as politicians are no better than men of the same class."

**Monument to Masculine Force.**  
American democracy stood to-day,

said Miss Bronson, a monument to masculine force. The brain and brawn of the male has bridged canons, sent transcontinental railways through the wilderness, joined two oceans, and established the nation's position in the world by mighty treaties. All of this was accomplished by men, by virtue of their ability to bear arms. By virtue of these deeds men have rightly assumed the exclusive right to the ballot, which insured the permanency of their handiwork.

The speaker shared Miss Bissell's opinion that the woman suffrage movement has really defeated remedial legislation by giving rise to sex antagonism and rivalry. The women opposed to the new gospel, she said, believe that women should take part in public affairs and in the life about them. This they can best do, she said, by standing together as women, unburdened with the new duty of the ballot, and undivided by party lines.

**Few Making a Great Noise.**  
Judge Christian, in making the opening address, professed alarm at the growth of the woman suffrage movement from the "fad" of a limited category to a movement claiming an increasing number of converts.

"The little 'club,' composed, as some thought, of a few frantic fanatics," said Judge Christian, "has by frequent meetings, by iteration and reiteration of their tenets, gained strength from among the male and female population of the city. And so to-day, even staid and conservative old Richmond, as we thought the very citadel of conservatism and propriety, as she was for four years the citadel and bulwark of the South, must now reckon with this cohort, although I do not believe that such is the fact; but that a few are making a great noise."

"It seems to me," said Judge Christian, "that the recent conduct of the suffragists of London, where Thor's hammer in female hands was used to smash the plate glass in Regent Street, Piccadilly, the Haymarket and the Strand, ought to be such an object lesson as would deter any and all of our people

ple from following in any path that could lead to such or to similar results.

Judge Christian said that he believed from the bottom of his heart that one of the greatest curses with which the nation could be afflicted would result from the injection of woman suffrage as a principle in the body politics of the South.

## Bowling

The Ding Bats struck a winning streak last night and won three games from the Slim Jims. Then the champion Mutt went on the attack in a battle royal with the Jeffs. The Mutt triumphed victoriously by winning two out of three games. Captain Gende carried off honors for high score. Edibut made a handsome finish in the first game when he finished with 94 for his score. The scores:

## Left Side Drive With Centre Control

Any other than a left-side drive is an absurdity under American road rules. It is a wonder that American motorists tolerated a right-side drive for so many years; a greater wonder that American manufacturers retained it.

The drive on the R-C-H is left side; the control is centre lever—out of the way, yet convenient to the operator's right hand.

The body is the graceful, roomy English type, recently made a feature of a few of the highest-priced American cars.

Greater accessibility; greater interchangeability due to the extensive use of drop forgings; ideal spring arrangement; perfect braking system—there are dozens of R-C-H features that must be seen to be appreciated.

Let us show them to you.

## General R-C-H Specifications

Motor—4 cylinders, cast en bloc—3 1/2-inch bore, 5-inch stroke. Two-bearing crank shaft. Timing gears and valves enclosed. Three-point suspension. Drive—Left side. Irreversible worm gear, 16-inch wheel. Control—Centre lever, operated through H plate, integral with universal joint housing just below. Springs—Front, semi-elliptic; rear, full elliptic and mounted on swivel seats. Frame—Pressed steel channel. Axles—Front, I-beam, drop-forged; rear, semi-floating type. Body—English type, extra wide front seats. Wheelbase—110 inches. Full equipment quoted above.

**Randolph-Macon Wins.**  
[Special to The Times-Dispatch.]  
Front Royal, Va., March 27.—Randolph-Macon Academy opened its baseball season to-day by defeating the Agricultural Industrial School of Mid-dletown, 6 to 0. Loose fielding and failure to hit with men on bases caused Middletown's defeat.

## Whole Families Saved from Intense Suffering

Each year millions of people all over the United States suffer from improper or imprudent eating. This is caused by eating rapidly and at irregular hours without proper amount of exercise. They also overload the stomach with rich, heavy, greasy foods which are not thoroughly masticated. These habits soon put the strongest systems out of order. It is then they commence getting thin, losing their appetites and strength, and feel badly all the time. And they are surprised to find that this has brought on indigestion, constipation, dyspepsia and stomach troubles.

There is only one way to cure these diseases. Get rid of the poisonous gases produced by fermented food in the stomach. The Leftwich Chemical Company, located at Lynchburg, Va., after a careful study of these diseases, have produced a purely vegetable compound, known as CONQUELINE, which they guarantee will cure all stomach troubles. Mrs. N. W. Williams, Waverly, Va., writes: "I and Conquerine the best medicine I have ever taken for stomach troubles. Since taking it I feel better in every way. My stomach is a great deal stronger and I can eat anything I want and enjoy it. Enclosed you will find \$1.00 for another bottle."

Call on your druggist today, ask him to show you CONQUELINE in 50c, 60c and \$1.00 bottles. Purchase one with the understanding that you have our positive guarantee that it will cure you. Do this right now. Why suffer any longer when you have a sure cure within your reach? Remember, delays are dangerous.

## AMUSEMENTS.

**Grand Opera in English.**  
The Aborn English Grand Opera Company, the only American organization of its size and kind, which comes to the Academy of Music for three performances, to-morrow and Saturday night. The Aborn name has reached a high position in the operatic annals of New York, Boston, Chicago, Philadelphia and a few other cities in which it has appeared for runs of from five to twenty weeks each season during the last decade, and in many other cities in which it had one-week engagements. Last season, for the first time in its history, this organization included a number of other cities for shorter engagements with equal success, finding a large demand for their offerings everywhere. The present Aborn organization is larger, and more pretentious than last season, including 100 persons in its double cast, large chorus and complete orchestra, and carries four carloads of scenery, costumes and effects, traveling entirely by special trains.

**"The Odyssey."**  
William J. Burns, the world-famous detective, the one who sent the dynamiting McNamara to the penitentiary, has entered the film industry for the purpose of arresting intruders on Homer's "Odyssey" and such other big State right propositions. The Motion Picture Film Company will promote from time to time.

This is a word sounds the death knell to all sorts of pirates and rangers. There's a jail in every town in America and there's a detective belonging to the Burns National Detective Agency there also.

Homer's "Odyssey" will be shown for the last time at the Academy to-day, matinees at 2:30 and 3:30; night at 8:30 and 9:30.

## NO BATTLESHIPS AT THIS SESSION

Washington, March 27.—The Democrats of the House to-night in caucus refused to rescind their action taken at a former caucus opposing appropriations for battleships at this session of Congress. After a long discussion, on a motion of Representative Padgett, of Tennessee, chairman of the Naval Affairs Committee, to rescind the former action, the motion was laid upon the table by a vote of 117 to 26. Following this action Majority Leader Underwood moved that the action of the former caucus, eliminating battleships and public buildings appropriations, be made a party measure, and this was carried by more than two-thirds majority. Mr. Underwood made a speech against any battleship appropriation on the ground of party economy. Mr. Padgett in his resolution to rescind the former action recommends an appropriation for one battleship.
